

# CRYL-A-FLEX

## Applications

**Product:** Cryl-A-Gard SL  
**Customer:** B1-B Support Equipment Shop, Dyess Air Force Base, Abilene TX  
**Industry:** Military  
**Date:** July 2000

### PROBLEM:

The 12,900 SF addition to the B1-B bomber shop required a flooring system with the following features:

- Durable, long lasting wear, chemical and slip resistance
- Fast installation, due to a tight construction schedule.

### SOLUTION:

The answer, Cryl-A-Gard SL (3/16 inch thick) MMA overlay system with two topcoats and aluminum oxide broadcast for slip-resistance. The complete floor, primer, self-leveling overlay and two topcoats were installed within the short schedule and ready for use 1 hour after installation.
